Provide sketch of proposed project (can be attached)				
Give Address and Legal Description of Property to be served:				
Give Description of Request Including Exact Use of Service and Any Refrigeration and/or Air-Conditioning Water Consuming Appliances:				
<b>I request that NGLW complete the above described changes/installations for which the Owner will pay for in accordance with the rates and terms on file with the Public Service Commission of Wisconsin. I, on behalf of the Owner, agree to the Terms and Conditions of Service (see back of application). I have the authority to make this request on behalf of the Owner.</b>				
Signature of Owner or Authorized Agent				Date

### Terms and Conditions of Service

1. It is the responsibility of the applicant to contact NGLW to discuss service options, routes, etc.
2. The applicant has provided NGLW with a sketch of the property that locates all private facilities that may already be underground or you may have future plans for, such as a well, septic system, deck, garage, swimming pool, etc. The applicant understands and agrees that NGLW is not liable for any damage to any underground facilities that are not shown on the sketch. If the applicant does not provide a sketch, NGLW is not liable for any damage to underground facilities.
3. The applicant shall furnish adequate right-of-way easements and permits, with clearing rights, to NGLW for installations along a route approved by NGLW. The applicant is responsible for restoration of the property after NGLW has completed installation.
4. The Owner is responsible for the service pipe from the curb stop to the point of use.
5. The Owner will need to obtain a well operation permit for existing wells on the property.
6. Subdivision developers shall be responsible, where the main extension has been approved by the utility, for the water service lateral installation costs from the main through the curb stop and box. Owners shall pay a water impact fee when a residence is connected to the water main/lateral.
7. The initial water service lateral(s), not installed as part of a subdivision development or an assessable utility extension, will be installed from the main through the curb stop and box by the utility, for which the actual cost will be charged to the Applicant.
8. The applicant agrees to pay for the cost of service extensions, changes, upgrades, etc. (i.e., contribution in aid of construction) in accordance with Public Service Commission of Wisconsin rules. Cost estimates provided by NGLW or an engineer of NGLW are not guaranteed.
9. If an applicant taps into an extended main within 10 years of the date of completion and that main was paid by another customer as a contribution in aid of construction, the applicant is responsible for paying an proportional amount of the original contribution in aid of construction as calculated by NGLW. This amount will be refunded to the original customer.
10. NGLW reserves the right to request a deposit or letter of credit to insure payment of services and/or water used.
11. The Village Building Inspector and/or NGLW will inspect installations. If installations are found to contain discrepancies, such discrepancies shall be corrected before permanent connection of service will be completed. The applicant agrees to pay an inspection fee.

<u>Cost Description</u>	<u>Y/N</u>	<u>Amount</u>	<u>Paid/Date</u>
